

FLUSOL-FORTE

“Will beat everything”

Flusol-forte is already for 50 years the most faithful glass cleaning product in the horticulture. That is the reason why Flusol-forte is internationally used for cleaning of glass and foil.

Flusol-forte is a detergent based on fluoride. You can use Flusol-forte on glass and foil.

Flusol-forte removes: rust, root, algae, moss, dust, etc. You can use Flusol-forte only in empty greenhouses. Do not use Flusol-forte when Leila's and freesia's cultivate nearby in connection with evaporation.

Directions for use

1. The dosage that you need depends on how much waste you have.
In normal circumstances: usage 6 litres Eco-forte on 100 litres water.
2. Let the solution soak for 10 minutes.
3. Spray it off with a powerful water force.
Therefore use enough water.
3. Important: Do not let Flusol-forte dry up.
4. Clean the tools with water after using it.
